Introducing Unlimited Graphic Design in Real-Time

CHAPTER 1

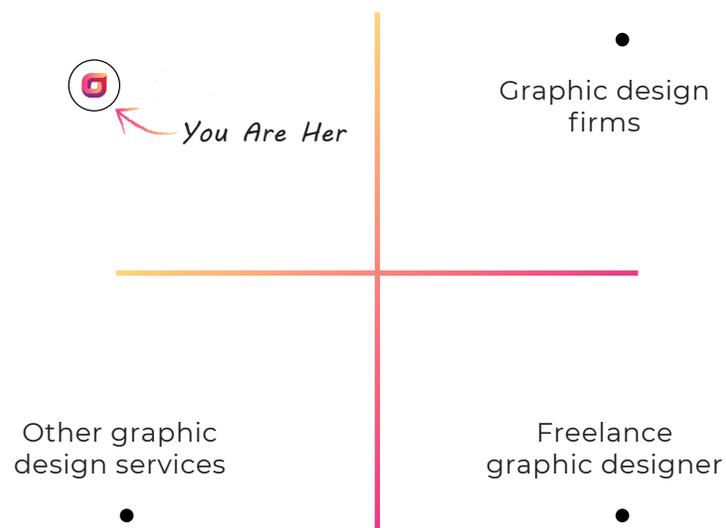

What is DesignDepart?

DesignDepart is an unlimited graphic design service committed to being **the most helpful creative company in the world**. We set out on a mission **to change lives through creativity** in 2015 and just 3 years later we've returned over 170,000 design requests (and counting!).

DesignDepart is now the #1 flat-rate graphic design service in the world.

The Cost and Reliability of Graphic Design Services

DesignDepart came to life when our founder, realized there was a major gap in the entire graphic design industry. You could hire reliable designers and design firms, but they often cost a small fortune. On the other hand, there are cheap freelancers and other graphic design services, but they can be unreliable (and the cost of revisions quickly add up). DesignDepart was created to be an affordable graphic design alternative that provides reliable and creative custom design unlike anything available in the graphic design industry.

UNLIMITED GRAPHIC DESIGN REQUESTS & REVISIONS

Design Depart just have a diferent style when it comes to graphic design. You shouldn't have to pay every single time you need a simple tweak done or even a complete redesign if your designer missed the mark on their first try.

We are not satisfied with your designs until you are, which is why our service comes with unlimited graphic

design requests and revisions. There's no limit to how many new designs you can request or how many revisions you need. Every business day your designer is available and working on any design requests you have pending.

Do you have multiple brands or businesses? No Problemo! There's NO LIMIT on the number of brands for which you can use your DesignDepart account.. We realize in this fast-paced internet culture, many people have several diferent brands whether they own multiple business or work on multiple projects. Denying our clients the chance to request unlimited brands just doesn't jive with our mission statement.

Every DesignDepart client is paired up with their own dedicated graphic designer to bring their ideas to life. Each of our graphic designers are completely ego-free, with quality review teams and managers supporting you and your designer throughout the creative process.

We make sure to pair you with a designer who matches your business, your brand, and how you plan on using our service.

Onboarding is simple. Just answer a few questions so we can learn more about your specific needs and match you with a designer uniquely qualified to serve you.

If you've worked with graphic designers before, you know the struggle of trying to keep the same branding consistency in all of your designs. We recognize this struggle and thwart it before any major mistakes are made.

YOUR OWN
**DEDICATED
GRAPHIC
DESIGNER**
FOR A FRACTION
OF THE COST

IF YOU CAN
DESCRIBE
**WHAT YOU
NEED**
IN AN EMAIL,
WE CAN DO IT!

Our general rule for all graphic requests is that if you can describe what you want in an email, then we can give it a try. You can even sketch or scribble what you need designed, take a picture, and send it in with your request. We want to make this as easy as possible for you.

We aren't a replacement for a full-time designer. Services not within our scope include:

- Motion graphics
- Website wireframes/coding
- Branding and original logo design

We have created our own app, called SDR, for you to submit requests and communicate with your designer. You can use email to submit requests, but SDR keeps your design process out of email and ensures that you don't miss any important details.

SDR is also fully integrated with Unsplash and Getty images! If you need a stock photo for your graphic, you can search both image databases directly inside SDR! If you don't have time to search, you can always tell your designer what you're looking for and they'll search for it for you.

SDR:
A BETTER
WAY TO
**SUBMIT
REQUESTS**

SDR will store all of your past requests for as long as you stay a client. If you ever need a revision, or you just want to look through your past design requests, you can do it directly in SDR.

TURNAROUND TIME

In general, you can expect your first round of designs back in 1-2 business days. Your designer works on your queue each business day. However, turnaround time is dependent on two factors: The complexity of your requests and the amount of active requests in your queue.

DAILY OUTPUT

Your professional graphic designer works on your requests every business day.

WORLD-CLASS SUPPORT

If you need additional help, we have a dedicated customer success team in the trenches ready to handle any challenge you may throw at them. Similar to working with a dedicated designer, you will get your own dedicated Customer Success team member assigned to you. This helps to build a relationship with your personal Customer Success representative so we can tackle your concerns efficiently and effectively. Just send an email to help@DesignDepart.com and they will be happy to assist you!

OWN ALL OF YOUR DESIGNS

You own everything we create for you. Our designers provide the source files for each project they work on. You receive an editable Adobe file as well as a JPG, PNG, and PDF for every completed design.

14-DAY MONEY BACK GUARANTEE

Each DesignDepart account comes with a risk-free 14-day money back guarantee. If we're not the best fit for your business, you may cancel and get your money back, no questions asked, as long as you cancel within the first 14 days.

KEEP YOUR ACCOUNT ON HOLD

You may not need the same graphic output each and every month, so you can put your account on hold for \$14.99 per month. We will keep all of your files safe and sound, and you can access any past designs any time.

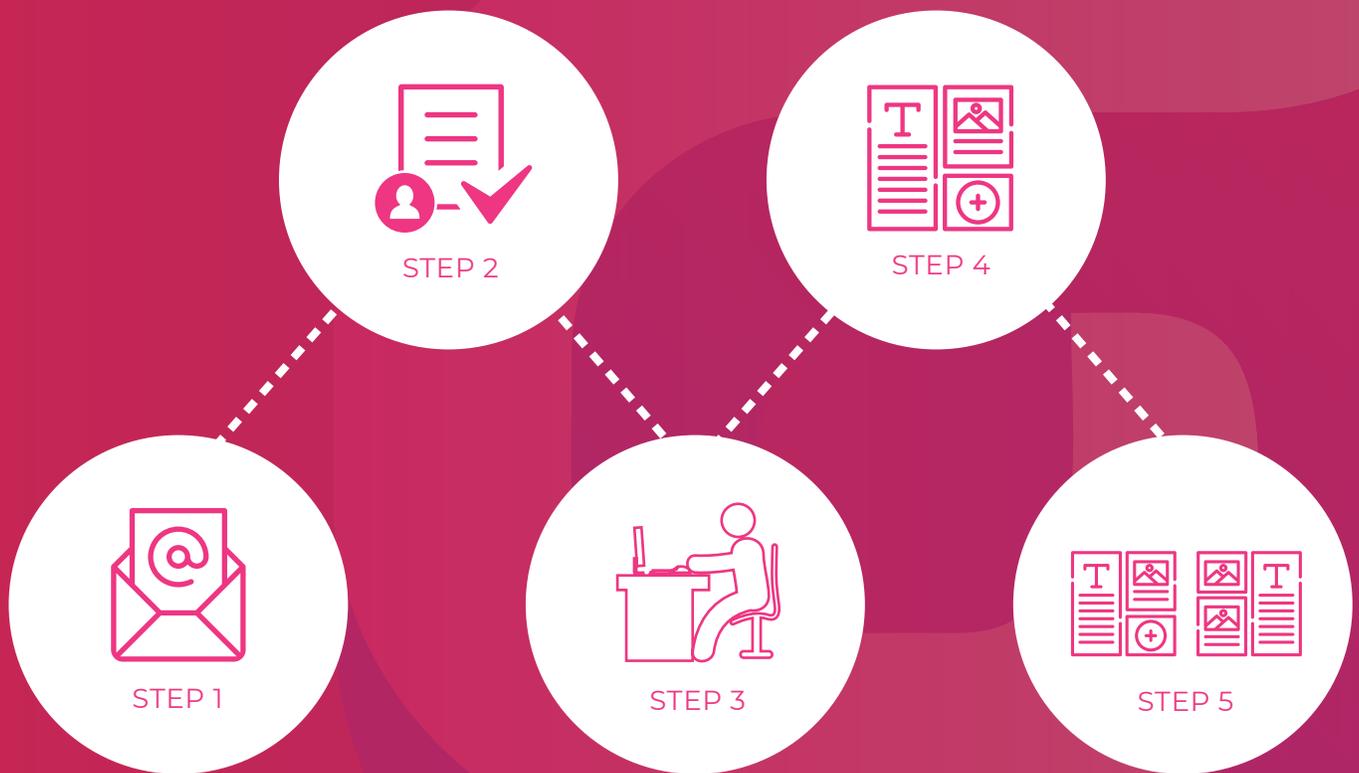

ONE LOW MONTHLY COST

Here at DesignDepart, we pride ourselves on being able to help so many people around the world and that is partly due to our low monthly cost. DesignDepart is only \$299 per month to enjoy our unlimited graphic design service.

This price point allows us to work with everybody who otherwise would not be able to hire a graphic designer and it's the reason why so many of our clients have fully integrated us into their day-to-day life.

CHAPTER 2

How Does DesignDepart Work?

Think of us as your graphic design BFFs! Just like real BFFs, we both need to learn a little bit about each other before making any requests.

After signing up, we'll ask you a few questions so that we can have a better understanding of your needs and how we can help your business. Then we will walk you through a series of videos that will teach you how to get the most value out of your DesignDepart subscription. You are free to start requesting once the onboarding process is complete!

THE TWO WAYS TO SUBMIT DESIGN REQUESTS

There are two different ways to submit design requests. You're already familiar with the first one:

1

EMAIL REQUESTS

Submitting an email request is as easy as it sounds! Just send any design request you have to **request@DesignDepart.com**.

Our system will automatically route your request to your designer—Then, our quality review managers and your designer will get to work. It will generally take one business day to receive your first round of designs. However, some requests are more complex than others and will take additional time.

If your request is complex (such as a 90 page ebook) or if you already have a batch of active requests in your queue, it may take more time. We will handle all requests on a first-in, first-out basis unless you specify otherwise. If you would like a current request to take priority over older requests, simply tag "Priority" in the subject of your email request.

The other way to submit requests (and our personal favorite) is by using SDR - the app we created to make the submission process easier for you.

2

SINGLE REQUESTS

SDR is our favorite way to submit requests because it ensures that you're not missing any important details.

You can submit a SDR request by following three simple steps.

SUBMIT A DESIGN REQUEST IN JUST 3 STEPS.

STEP 1

DESCRIBE THE DESIGN

Explain what you need designed. As always, the more details, the better!

Name of request	Describe what you are looking for.
File size or dimensions	
Who is the target audience for this design?	What are you NOT looking for?
We love inspiration. Share any links to designs you like here.	

What file type do you need?

.jpg .png .pdf Adobe (AI PSD INDD)

STEP 2

NEED PHOTOS?

I don't need photos or I'll upload my own.

Yes, I need photos

STEP 3

UPLOAD ANY ASSETS

Upload any other assets we will need for the designs!
Think content, photos, fonts logos, etc

+ ADD FILES

I've described or uploaded all final copy and content for this design

Design Depart IT!

1st STEP

DESCRIBE THE DESIGN

Step 1 is actually the only step that is mandatory! The other steps in SDR allow you to thoroughly explain to your designer exactly what you're looking for so they can nail it on their first attempt. Don't worry - you will still be able to request unlimited revisions if needed!

In Step 1, you'll name your design, pick your file size and dimensions, and describe what you want in your request. The other fields in Step 1 are completely optional, but filling them in will help your designer get a general vibe and style direction of your new request.

You also have the option to fill in the target audience for your design, share links to inspiring photos or websites you want your designer to gain inspiration from, and you'll have a chance to describe what you're NOT looking for.

At the bottom, you can select which file type(s) you need for your design. By default, we will provide a JPG, PNG, PDF, and the Adobe source files.

**2nd
STEP****NEED STOCK PHOTOS?**

In Step 2, you'll have a chance to search the Unsplash and Getty Images database. Unsplash is free for all clients to browse, but access to the Getty Images database costs an extra \$25 per month.

STEP 2**NEED PHOTOS?**

I don't need photos or I'll upload my own

Yes, I need photos

If you require a stock photo added to your design request simply select "Yes, I need photos". Then answer whether you prefer to search for your own photos, or if you'd like your designer to search for you.

STEP 2

[← Back to Last question](#)

NEED PHOTOS?

Awesome! You can now pick out your own images.
or we can find photos for you

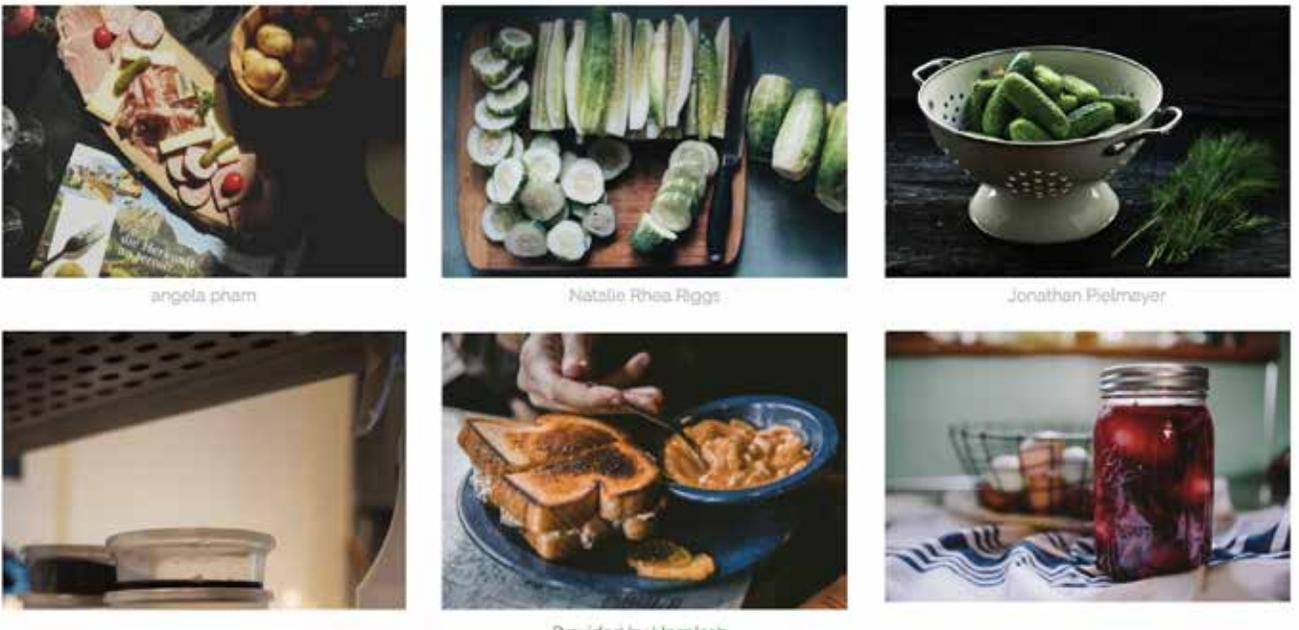

Find my own photos 

Find photos for me

If you want to search for your own photos, select “Find my own photos”. A search box will appear and you can search for what you’re looking for. Unsplash will automatically load photos with that keyword. If you upgraded to Getty Images, you can browse their database too.

Q pickles SEARCH

3rd STEP

NEED STOCK PHOTOS?

Step 3 is the place to upload any assets you would like to share with your designer for your request. You can upload logos, branding colors, a specific font, or even a hand-drawn doodle of what you're looking for! Don't worry if you're not a good artist; our designers are good enough to turn your napkin drawing into graphic design gold.

REFERRAL PROGRAM

You can also find our referral program in SDR. If you're loving your time in the SDR and want to recommend a friend to try , we'll send you 15% of every sale that signs up using your special link.

Simply select the Design Depart? tab in the menu and enter your email address to get your referral code!

PAST REQUESTS

SDR will store all of your past requests for as long as you're a client. If you ever need a revision, or you just want to look through your past design requests, you can do that all directly in SDR.

CHAPTER 3

What kind of requests
can I make with
DesignDepart?

CHAPTER 3

What kind of requests can I make with DesignDepart?

Our unlimited graphic design service quickly delivers quality designs. However, we aren't a replacement for a full-time designer. Services not within our scope include:

- Website wireframes and coding
- Motion graphics
- Branding and original* logos

*Note: While we won't do original logos we can tweak and update your current logo

Our list of what we CAN make for you is rather extensive. Remember our golden rule:

if you can describe what you need in an email, we'll give it a go!

Since we've delivered over 170,000 unique design requests, we have been able to make graphics for just about everything under the sun.

Here are just some of the requests that we've seen come through our SDR:

- | | | | |
|---|---|---|---|
| <input type="checkbox"/> Branding & Logo | <input type="checkbox"/> E-Book & Cover | <input type="checkbox"/> Brochure | <input type="checkbox"/> Beaver Builder |

WHAT IF YOU'RE UNHAPPY WITH THE FIRST DESIGNS THAT COME BACK?

Let's be real—The creative process can be tricky. Sometimes it takes a few tries for your dedicated graphic designer to really lock into your business's branding style. We offer unlimited revisions because we want you to be in love with your final designs.

The easiest way to **FALL IN LOVE** with your graphics is to provide honest and articulate feedback to your designer. You can directly reply to any email or SDR request to provide feedback for that specific project.

All feedback should follow these three basic rules:

1. BE CLEAR
2. BE SPECIFIC
3. BE ACTIONABLE

And remember, your feedback doesn't always have to be negative. Our designers are real people just like you and they love when you provide positive feedback when they really nailed your designs.

CHAPTER 4

Who is DesignDepart for?

On the surface, our service is for anybody who has had any experience working with a graphic designer before.

Does that mean we won't accept clients who have never used a graphic designer before? Not exactly, but we've noticed that those who have worked with a graphic designer in the past typically have more success with our service.

Why? Those who have experience working with graphic designers are usually able to provide better directions to their DesignDepart designer and they understand the design process with more clarity.

We've created a handful of onboarding videos to set each new customer up with success, so if this will be your first time using a graphic designer, make sure you pay extra close attention to those videos!

YOU NEED A MONTHLY GRAPHIC DESIGN SERVICE IF...

- A. You have too many designs needs and need more support
- B. You're spending too much money on your freelance or in-house designer
- C. You're tired of surprise charges during the revision process
- D. You need an affordable on-demand service
- E. You need a designer who is reliable
- F. You need an ego-free designer
- G. You're tired of getting into lengthy & expensive contracts
- H. You've overpaid for a designer before

You should sign up for [DesignDepart](#) today if any of these resonate with you.

EXAMPLES OF CLIENTS WE WORK WITH:

Now you might be thinking that this does sound like a great fit for your business needs, but perhaps you would feel more comfortable if there are success stories in your particular industry. While the examples below don't cover ALL of the different industries we work well with, it will give you a good idea of what a great fit looks like.

EXAMPLE #1

SMALL TO MEDIUM SIZED BUSINESSES

Monte

Co-Founder at Technology Focus

Design depart is easily my single best ninja hack for marketing. If you don't get it, don't be surprised when your competitor does and kicks your amateur design's butt.

Nathalie

Founder at AmbitionAlly

Loving the service and wouldn't change a thing! Its helped me and my team focus on our zone of genius, while keeping on track with our quick turnaround schedule!

Laura

CEO at Leadership Academy LLC

I am super happy in the SDR! The designs are great, and spot on nearly every time. If I need edits, they are done quickly. It seems like I am bragging [about] you guys to all my friends all the time. Thanks for making my business look so professional and elegant, and especially thanks for making life EASIER for me! I love Design depart!!

“

EXAMPLE #3

CHURCHES AND NON-PROFITS

Dan
Lead Pastor at Church SD

As a church we are constantly needing designs for social media and print. We have a couple designers that work for us at times, but they are always too busy to deliver in a timely matter. We use Design depart because of the quick turnaround and unlimited design.

EXAMPLE #4

CREATIVES

Aiden

Agency Partner / Art Director at Vitals Agency

We've always delivered top quality assets. The Design depart designers follow my art direction incredibly accurately... which is pretty much the most important thing ever!

Susan

Head Chef at Grits Marketing Group

Design depart has been a great resource for me. Very easy to work with, affordable, and efficient. And good work on top of that!

CHAPTER 5

Introducing Unlimited Graphic Design in Real-Time

While some DesignDepart clients love waking up to a new design in their inbox from their designer, some users prefer that their designer works during US hours. Working the same hours means getting your revisions done immediately rather than having to wait until the next creative round to give feedback to your designer. With Dayshift, clients who do not want to wait another day don't have to!

Introducing Dayshift by DesignDepart. Dayshift uses the same business model as DesignDepart, but now it's available on your schedule.

WHAT IS THE DAYSHIFT?

Dayshift is a new premium tier of DesignDepart offering a dedicated graphic designer available to clients during US business hours. Rather than waiting a day to receive your designs back, you'll be able to collaborate in real-time with your designer to make edits and provide feedback during the time that is most convenient for you. Plus, a lower designer to client ratio means that your designer will have more bandwidth exclusive to you and getting your design needs met.

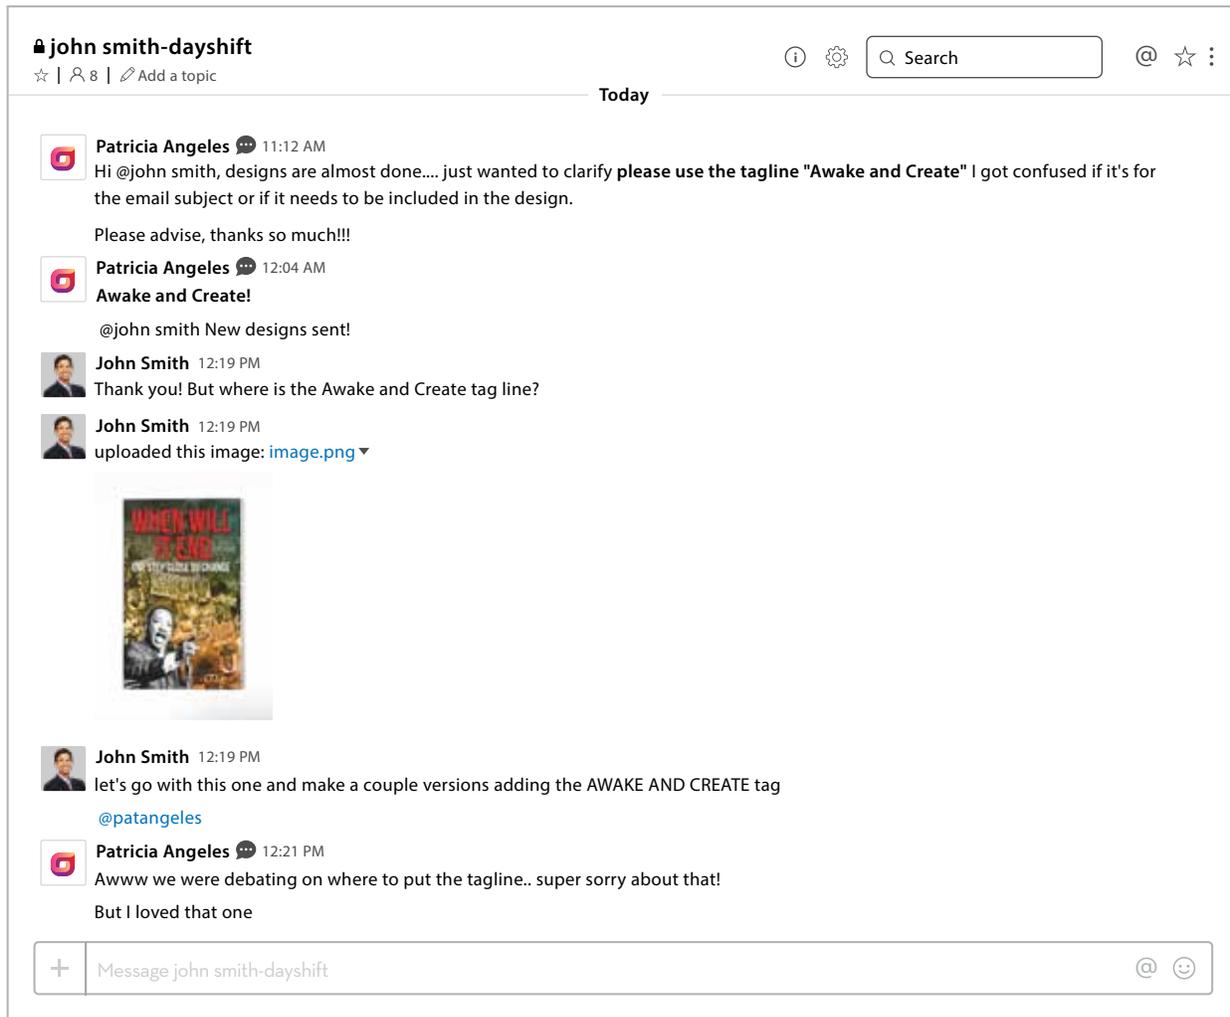

INCREASED VOLUME THROUGHOUT

Dayshift members can communicate with their designer in real-time meaning your designer will be able to get more designs done for you in a standard business day.

Real-time communication enables your designer to knock out revisions quicker as well as tackle design requests more efficiently. If either you or your designer has a question regarding a specific project, you can quickly hop into Slack and ask it. Slack will send notifications so you can reply or get an answer in minutes.

Our designers will try to get done what they can with the time they have in their shift.

COLLABORATE IN REAL-TIME VIA SLACK

The screenshot shows a Slack channel interface for 'john smith-dayshift'. At the top, there are icons for channel settings, a search bar, and user management options. The conversation history shows:

- Patricia Angeles** (11:12 AM): Hi @john smith, designs are almost done.... just wanted to clarify please use the tagline "Awake and Create" I got confused if it's for the email subject or if it needs to be included in the design. Please advise, thanks so much!!!
- Patricia Angeles** (12:04 AM): **Awake and Create!**
@john smith New designs sent!
- John Smith** (12:19 PM): Thank you! But where is the Awake and Create tag line?
- John Smith** (12:19 PM): uploaded this image: [image.png](#)

The image uploaded is a poster for the movie 'When Will It End?' featuring a man in a dark suit and a woman in a white dress. Below the image, the conversation continues:

- John Smith** (12:19 PM): let's go with this one and make a couple versions adding the AWAKE AND CREATE tag
@patangeles
- Patricia Angeles** (12:21 PM): Awww we were debating on where to put the tagline.. super sorry about that!
But I loved that one

At the bottom, there is a message input field with a plus icon on the left and '@' and smiley face icons on the right.

Need a quick change made to your latest request? No problem. Want to hear what your designer has in mind for a design? Ask them right now! Don't want to wait another day to see what your designer was up to? You got it. You'll be blown away by how much better working in real-time with your designer is. No more waiting a day to get your requests.

Real-time communication with your designer will be powered by Slack (which is free to use!). When you become a Dayshift client, you will be added to a private slack channel with your designer, a quality reviewer, a production manager, and a representative from our Customer Success team, should they need to step in for anything. Slack will be like your own little private design club where you can collaborate with your designer, request edits, and get your questions answered.

You will benefit most by having one primary point-of-contact to manage your Slack channel. Your designer will then have a dedicated individual to contact if they have any questions.

AN OVERALL MORE INTIMATE GRAPHIC DESIGN EXPERIENCE

The Dayshift is like having your own part-time designer for a fraction of the cost and with more perks. You are able to develop a better, more intimate graphic design experience as you collaborate with your designer every business day in real-time. And if you have any issues, your account will be backed up by our world-class support team.

HOW DOES DAYSHIFT WORK?

Anyone interested in the Dayshift can sign up [here](#). Due to the nature of this premium tier of DesignDepart, we will not be able to accept everyone at once. Once we reach capacity, we will redirect those interested in Dayshift to a waiting list. People on the waiting list will be first to be notified when we reopen enrollment for Dayshift.

Here's how the Dayshift tier will work:

- You can continue submitting requests as you usually do with DesignDepart through SDR.DesignDepart.com or via email.
- When you submit a request, SDR will know that you're a Dayshift client and will automatically route it to the Dayshift team. The team will do the standard request review to make sure the request is sound and ready to start work. If we have any questions regarding your request, we will send you a message in Slack.
- Once everything looks good on our end, your designer will get to work. You can then collaborate as needed in Slack.
- Your designer will be available for collaboration as much or as little as you need them. They will be available in Slack during US business hours on weekdays (and non-holidays).

WHO IS A GOOD FIT FOR THE DAYSHIFT?

Dayshift is great for people who have worked with a graphic designer before and understand the process of working with a designer. It is particularly helpful for clients whose requests tend to have many small edits that can be made with a quick back and forth, real-time chat with your designer. Dayshift will also benefit those tired of surprise charges as well as those who would like more oversight and reliability to the production of their graphic design.

WHO ISN'T A GOOD FIT FOR THE DAYSHIFT?

Dayshift may not work well for teams who work outside of US business hours compatible time-zones, teams that would rather take a “set it and forget it” approach towards their requests queue, or teams that do not want to collaborate with their designer in real time. If this sounds like you, our Standard plan will be a better fit for you and your business needs.

HOW MUCH DOES DAYSHIFT COST?

Dayshift represents an investment of \$799/month.

IS THERE A LONG-TERM COMMITMENT FOR DAYSHIFT?

There is no long-term commitment you must make to Dayshift. If at any time you're dissatisfied with the Dayshift or simply want to move back to a monthly DesignDepart plan, just let us know! Introducing Dayshift by DesignDepart. Dayshift uses the same business model as DesignDepart, but now it's available on your schedule.
